VISIT OF MANPUR VILLAGE (NATURAL FARMING)

DATE – 04/01/2022

PLACE – MANPUR VILLAGE

Under the “AAZADI KA AMRUT MAHOTSAV” (Panch Prakalp), students visit to **MANPUR village** from Government Polytechnic Palanpur by **taking a bicycle** to aware about natural farming was arranged on 04th Feb. 2022

The importance of natural farming has been explained by **Mr. Hareshbhai Chaudhary, an expert in natural farming** and also informed about the serious diseases that can be caused by chemical drugs and fertilizers in the coming days.

Mr. Chaudhary also did some experiment to explain practically how's the chemical fertilizer are damaging our nature.

Students enjoyed knowing the different ways of farming. They gained knowledge about different types of seeds, plants and trees.

At the end of the visit, a resolution was taken to convey the message of natural farming to the students from village to village.

EATING ORGANIC ISN'T TREND IT'S A RETURN TO TRADITION

The Final principle of Natural Farming is **NO PESTICIDES,**

Nature is in Perfect Balance When Left Alone

INTERNATIONAL YOGA DAY

DATE – 21/06/2022

PLACE – SEMINAR HALL , G P PALANPUR

The International Day of Yoga has been celebrated across the world annually on **June 21 since 2015**, following its inception in the United Nations General Assembly in 2014.

Yoga is a physical, mental and spiritual practice which originated in ancient India. **The Indian Prime Minister, Narendra Modi, in his UN address in 2014**, had suggested the date of June 21, as it is the longest day of the year in the Northern Hemisphere and shares a special significance in many parts of the world.

As we all know the whole world is celebrate 21st June day as an International Yoga day, this time in 2022 in India it was celebrated with the concept of **“YOGA FOR HUMANITY”**.

As part of pre yoga day, Government polytechnic Palanpur has organized a workshop on **“Happiness Meditation and Breathing”** on 18th June 2022 in the presence of shri Chauhan sir, Principal, Technical High school, Palanpur.

Chauhan sir has practiced yoga method proposed by Gurudev Sri Sri Ravi Shankar. All participants have felt power of meditation during this session.

On the Yoga day, 21st June 2022 at Government polytechnic Palanpur, yoga practice was arranged in the presence of **yoga teacher Shri. Amichandbhai and Shri. Joitabhai (yoga teacher, Patanjali yoga centre, Palanpur)** .

Faculties, staff members and students have participated in this event with Enthusiasm.

The design is highly detailed with various geometric and floral patterns in shades of red, yellow, green, and blue. The person is depicted in a meditative state, with hands resting on their knees and feet tucked under them.

CYBER CRIME AWARENESS

DATE – 06/07/2022

PLACE – SEMINAR HALL

Government polytechnic Palanpur has organized a seminar on '**Cyber Crime Awareness**' to impart knowledge to the students and staff about the various issues related to cybercrime and hacking on **6th July**.

The lecture was delivered by **Shri. Vinodbhai Chaudhari, State Cyber Crime Cell, CID Crime, Gujarat**. He shared lots of case studies with us like the case of Cassidy wolf. Websites used for downloading songs like Songs.pk are also supporting piracy. Credit card frauds are done with the help of skimmers.

Cybercrime is a criminal activity in which a computer is used as a source, tool or target. There are different types of cybercrimes like hacking, denial of service, virus dissemination, piracy, phishing, spoofing, defamation, IRC crimes etc.

The students and faculty got to learn a lot about cybercrime, its awareness.

76TH INDEPENDENCE DAY

DATE – 15/08/2022

PLACE – G P PALANPUR CAMPUS

The Independence Day of India is celebrated on the 15th of August to commemorate the birth of a free and democratic nation. 15th August 1947 is the historic day that marks India's freedom from the stranglehold of the British Raj. On the eve of 15th August 1947, the Indian flag was unfurled proudly by Jawaharlal Nehru, the first Prime Minister of India, at the Red Fort in Delhi. Jawaharlal Nehru's landmark 'tryst with destiny' has gone down in the annals of Independent India as a proud moment for Indians.

On this special day Flag hoisting ceremony was arranged in our college government polytechnic Palanpur with fervent zeal and patriotism. Flag hoisting and speech was done by our principal Shri. S D Dabhi sir. Tributes are paid to the martyrs for their contribution to the freedom struggle.

Flower rain by drawn which was made by students was remain eye catching moment. All Staff members their family and students taken participants enthusiastically.

ओ, देस मेरे, तेरी शान मे बदके
कोई धन है क्या तेरी धूल से बड़े
के?
तेरी पूज स॥

CLIMATE CHANGE

DATE - 17/09/2022 to 30/09/2022

PLACE – SEMINAR HALL

Gujarat with its longest coastline in India (~1,663 km) is even more susceptible to Climate Change impacts. Extending from Kutch in the north to Valsad in the south, the State of Gujarat lies exposed to the likely sea level rise and changes in sea surface temperatures, which might probably increase storm surge occurrence and cyclonic activity in the Arabian Sea. The changes in rainfall patterns might lead to reduced surface flow in Luni, Mahi, Sabarmati and Narmada rivers which could affect both domestic and agriculture water availability. This in turn, along with temperature variations, could affect crop productivity adversely.

The Government of Gujarat has thus taken a pioneering step in the whole of Asia by establishing the first ever full-fledged Climate Change Department at the sub national level. The Department is under taking actions required for mitigation of an adaptation to Climate Change.

The Government of Gujarat is committed to building a sustainable and climate resilient future for the people of Gujarat, at the highest level of administration. As part of Gujarat's proactive approach, in 2009, then Hon'ble Chief Minister of Gujarat Shri Narendra Modi declared an in principle decision of the Government to form a new Department of Climate Change. The Climate Change Department acts as a bridge within the Government, and between the Government and the Society to address Climate Change. Gujarat is the first and only State in India, the first in Asia and fourth in the world to form an independent department for Climate Change.

On the occasion of the establishment day of Climate Change Department of Gujarat Government on September 17, various programs have been organized from 17/09/2022 to 30/09/2022 at our institute GOVERNMENT POLYTECHNIC PALANPUR.

Various programs like slogan competition, Innovative Ideas for combating climate change, group discussion competition, essay writing competition, elocution competition are organized at institute.

Participating and winning students of the competition will be awarded certificates by the Gujarat Energy Development Agency under the Department of Climate Change.

During this celebration students learned about following some interesting facts about climate changes.

WHAT IS CLIMATE CHANGE?

The changes in the average weather conditions in the given region or area over the time is Climate Change. This includes changes in temperature, wind patterns and precipitation. The change is referred in a global sense and concerns the earth as a whole.

Climate Change in Intergovernmental Panel on Climate Change usage refers to a change in the state of the climate that can be identified (e.g. using statistical tests) by changes in the mean and/or the variability of its properties and that persists for an extended period, typically decades or longer. It refers to any change in climate over time, whether due to natural variability or as a result of human activity.

OBSERVED CHANGES

According to Intergovernmental Panel on Climate Change, warming of the climate system is unequivocal, as is now evident from observations of increase in global average air and ocean temperatures, widespread melting of snow and ice and rising global average sea level.

- Global temperature increase especially at higher northern latitudes.
- Decline of mountain glaciers and snow cover in both hemispheres.
- Ocean acidification.
- Global average sea level rise at an average rate of 1.8 mm per year during 1961 to 2003 and 3.1 mm per year during 1993 to 2003.
- Increase in intense tropical cyclone activity in the North Atlantic.
- Changes in global precipitation pattern.
- More intense and longer droughts over wider areas in the tropics and sub-tropics.
- Increased heat-related mortality and infectious diseases.

Benefits of natural farming

Natural farming is considered as cost-effective farming practices. This provides employment opportunities in the rural areas and helps in rural development. It is a diversified farming system based on agroecology that integrates crops, trees and livestock which allow the optimum use of functional biodiversity.

Natural farming is considered a form of regenerative agriculture which is a farmed strategy to save the planet. This method of farming has many other benefits, such as restoration of soil fertility and environmental health, mitigating greenhouse gas emissions and global warming and reducing pollution. Natural farming also has potential to manage and restore and sequester carbon from the atmosphere in soils and plants, where it is actually used.

Author: Panchal Shubh K.

Date: 22/06/2022

Natural farming

Natural farming is most important in our human life. Natural farming produces natural products which are chemical free and good for health.

Natural farming is a method of farming without using chemical fertilizers. This is also known as traditional farming or organic farming method. It is a diversified farming system based on agroecology that integrates crops, trees and livestock with functional biodiversity. Natural farming is largely based on on-farm biomass recycling.

Natural Farming

Natural farming produces natural products which are chemical free and good for health. Presently, in various of these sectors, advanced technology and chemical fertilizers are used to get high productivity. These chemical fertilizers increase productivity, but quality of products decreases in comparison to natural farming products. Natural farming produces high quality products full of all natural nutrients. Thus, it is very good for health as well as environment as it is chemical free and organic.

What is natural farming:-

Natural farming is a method of farming without using chemical fertilizers. This is also known as traditional farming or organic farming method. It is a diversified farming system based on agroecology that integrates crops, trees and livestock with functional biodiversity. Natural farming is largely based on on-farm biomass recycling, used to produce on-farm (low input) fertilizers. It is a periodic

NAVARATRI (GARABA) CELEBRATION

DATE – 06/10/2022

PLACE – MAIN GROUND , G P PALANPUR

Our organization Government Polytechnic Palanpur organized “Navratri Garba Mahotsav” on 06/10/2022 from 2 pm to 6 pm in a manner consistent with the culture of Gujarat for additional cultural activities apart from educational activities. Enthusiasm of the students were Increased by organizing prizes for the winners as well as the traditional dress.

SAVE SOIL

DATE – 09/10/2022

PLACE – SEMINAR HALL

Save Soil is a global movement launched by **Isha Foundation (Sadhguru)**, to address the soil crisis by bringing together people from around the world to stand up for Soil Health, and supporting leaders of all nations to institute national policies and actions toward increasing the organic content in cultivable Soil.

This movement has garnered support from global leaders including Marc Benioff, Jane Goodall, His Holiness the Dalai Lama and institutions such as United Nations - Convention to Combat Desertification, World Economic Forum, World Food Programme, Food & Agriculture Organization of United Nations.

Soil fertility is decreasing day by day not only due to excessive use of pesticides and chemical fertilizers but also due to other reasons such as roads and constructions. The soil is depleting and affecting the environment. In this regard, it is necessary to get information about the soil and to create awareness among the students. A lecture on the soil conservation campaign has been organized **at our institute on 09th September 2022 at 3:00 PM in the seminar hall.**

The lecture has been given by **Dr. SACHIN MALVE, Scientist (agronomy) Dantiwada Agriculture University.** Dr.Sachin has explained the need of this movement and awaked with some interesting facts about the soil. Some of as below,

- A study on nutrients in food concluded that we would have to eat 8 oranges to get the same amount of Vitamin A as our grandparents did with one orange because soil depletion has caused massive drops in nutrient levels in food. (Scientific American)
- 2 billion people suffer from nutritional deficiencies (WHO)
- The average mineral content of calcium, magnesium, and iron in cabbage, lettuce, tomatoes, and spinach has dropped 80-90% between 1914 and 2018 in the US (NCBI)
- The global economy will lose US \$23 trillion by 2050 through land degradation (UNCCD)

- Soil degradation causes a loss of \$235 billion to \$577 billion in crop productivity every year (IPBES)

The event become so interesting and students and faculties of the institute taken oath to plant one tree each year and take care of it.

CLEAN OCEAN MISSION

DATE – 09/10/2022

PLACE – SEMINAR HALL

The Ocean covers more than 70% of the Earth's surface and contains more than 97% of the water on the planet. The ocean's health is essential for all life on Earth, not only for marine wildlife. Keeping our marine ecosystems clean from debris and pollution is probably one of the most important goals we should work towards, and it is definitely one we should all care about. In the last decade, the discussion about the ocean has become more and more relevant. Our ocean functions as the Earth's life support system, and to ensure a sustainable future, we must protect and preserve its waters and ecosystems from all types of pollution.

There are many things we can do to clean our ocean and reduce the amount of pollution that enters it in the first place and to explain this "Clean ocean" programme has been organized at our institute. [Mr.Rakesh Prajapati, Lecturer Government polytechnic Palanpur](#), has explained need of clean ocean mission and explained following some ways to clean the ocean,

- Reduce the Use of Plastic Items
- Reduce Your Carbon Footprint
- Support Non-profit Organizations and Research
- Clean-Ups(simply do it on the weekend on your own, maybe involving your friends and family!)
- Clean the Ocean's Garbage Patches
- Eat Sustainable Fish (or No Fish at All!)

OUR WORLD OCEAN provides

THE AIR WE BREATHE

>50% The ocean produces over half of the world's oxygen and stores 50 times more carbon dioxide than our atmosphere.

CLIMATE REGULATION

70% Covering 70% of the Earth's surface, the ocean transports heat from the equator to the poles, regulating our climate and weather patterns.

TRANSPORTATION

76% Percent of all U.S. trade involving some form of marine transportation.

RECREATION

From fishing to boating to kayaking and whale watching, the ocean provides us with so many unique activities.

ECONOMY

\$282 billion Amount the U.S. ocean economy produces in goods and services. Ocean-dependent businesses employ almost 3 million people.

FOOD

The ocean provides much more than just seafood. Ingredients from the sea are found in surprising foods such as peanut butter and soymilk.

MEDICINE

Many medicinal products come from the ocean, including ingredients that help fight cancer, arthritis, Alzheimer's disease, and heart disease.

Gujarat 2022, National Games of India

DATE – 09/10/2022

PIACE – SEMINAR HALL

The 2022 National Games of India, also known as **Gujarat 2022**, will be the **36th edition of the National games of India** and will be held in Ahmedabad, Gandhinagar, Surat, Vadodara, Rajkot and Bhavnagar in the state of Gujarat **between 27 September and 10 October 2022**. The official logo and motto of the games was unveiled on 22 July 2022.

The logo depicts an Asiatic lion head make up of sporting pictograms and the Statue of Unity. The official motto of the games is "**Celebrating unity through sports**". The sports programme will include athletics, field hockey, football, volleyball, lawn tennis, table tennis, skateboarding, Netball and judo, and will also feature traditional sports such as kabaddi, kho-kho, mallakhamba, and yogasana.

An estimated 7,000 athletes from 28 states and eight union territories are expected to participate in 36 disciplines, which comprise most of the traditional Olympic sports. The National Games 2022 will be held across 6 cities in Gujarat, viz., Gandhinagar, Surat, Ahmedabad, Rajkot, Vadodara, and Bhavnagar.

To spread awareness of this event, **Mr. B G Parmar city mamlatdar Palanpur** came to our institute GOVERNMENT POLYTECHNIC PALANPUR on 09th September 2022. He has proudly explained the importance of this event at our country especially at Gujarat and also explained the importance of sports in our life. All the students and faculties has participated in this event enthusiastically.

VOTER AWARENESS

DATE - 09/10/2022

PLACE - SEMINAR HALL

In democracy, it is not simply enough to inform voters about election dates. In order to help the electorates take an informed decision, it is quintessential to sensitise them about the importance of participating in the electoral process. Moreover, voters need to be educated about the process and made aware of the political parties, their manifestos, backgrounds of the contesting candidates and armed with several other information to help them cast an 'enlightened' vote.

To make student aware about the election process and how to register for voter ID card, **Mr.B.G.Parmar City mamlatdar Palanpur** came to our institute on **9th September**. In this seminar he has explained need of voter awareness among new generation as well as in rural areas.

He also added that voting is an integral part of democracy, and it is necessary for people to have a voice. Everyone has the right to vote, which means that all Indians can vote for the Prime Minister of their choice. By voting, you can create change and make a difference in your community. It is also important to vote because you can only repeal a law if most citizens agree with it.

Voting is one way to be more civically engaged with your government. It is vital to make a difference in the world by having your voice heard and representing the views of people who don't have a voice. If you want to create change, voting is an excellent way. Voting in election helps citizens ensure that the country is granted better rights and protection.

At last we all take oath to give VOTE in every election and will also make aware other people about voting.

CONSTITUTION DAY

DATE – 26/11/2022

PLACE – SEMINAR HALL

“**Constitution Day**” also known as '**Samvidhan Divas**', is celebrated in our country on 26th November every year to commemorate the adoption of the Constitution of India. On **26th November 1949**, the Constituent Assembly of India adopted the Constitution of India, which came into effect from 26th January 1950.

The Ministry of Social Justice and Empowerment on 19th November 2015 notified the decision of Government of India to celebrate the 26th day of November every year as 'Constitution Day' to promote Constitution values among citizens.

As part of celebration of the day **preamble reading** was arranged in our institute at seminar hall.
